And Solution (FISS)

FOUNDATION FOR INTEGRATED SUPPORT AND SOLUTION (FISS)

(A company under Section 8)

To Engage, to Empower, to Enrich.

In September 2015, 193 countries came together to adopt the most ambitious Sustainable Development Goals (SDGs). India took the pledge too. Home to 1.3 billion aspiring people, India reclaimed its focus on the over-all development of the Society with special emphasis on its deprived section. India's success on

achieving the SDGs will play a significant role in accelerating the wheel of sustainable development. Foundation for Integrated Support and Solution (FISS) is one of the many spokes of that wheel.

Aligned with the global perspectives of SDGs, and National Policies derived by NITI Aayog, FISS was

established on August, 2016 to act as a platform for integrated and inclusive social growth in Northeast India.

FISS endeavors to bridge the gap between the vulnerable sections of the Society and the resourcefulness of the Government, Corporate, and the Non-Profit Organizations.

VISION

Creating Value Driven Social Engineering for Progressive Transformation.

MISSION

To drive social transformation by defining standards, setting good practices, and honoring the values of participation.

SUPPORT CENTRES

The successful attainment of the SDGs stand on the collective action and progress of the five dimensions of development – people, planet, prosperity, peace, and partnership.

Towards that end, 5 designated Centres of FISS keep their respective attention and effort actively focused on the achievement of their earmarked goals.

These are :

- a. Centre for Economic Development.
- b. Centre for Social Development.
